Students:

This week you can start by finishing the last page of the webquest, we were working on before the break. It is titled: Web-Quest Ancient Times. There is a hyperlink that will take you to the correct area on the webpage we were using.

The next topic is eclipses. There is a ppt. to read through and questions to answer. It will cover both lunar and solar eclipses.

Make sure you look at the “Read This” document. I will include more detailed instructions and any revisions to content.

Objectives

Objective / I Can:

- Review what a constellation is
- Be able to identify and locate specific constellations

Activities

Student Activities: (Resources, videos for students to use.)

Go to [Teams Folder](#). Look for the assignment:
