**Students:**

Dear Students,

Great job adjusting to learning from home. Most of you are adapting well to this new situation and I am so proud of you all.

Now that we have figured out how to operate in an online classroom, we are going to go ahead and pick up with Forensic Science and begin the new unit over Fingerprints.

For the week of March 30<sup>th</sup> you need to read through slides 1-20 in the PowerPoint: Fingerprints. There are two handouts that go with the ppt and an additional handout; Fingerprint Matching. The Matching handout will be easier to complete after you have read through the ppt material.

Also, there is an update in the way we will hold video conferences. I found out we won't be able to use zoom, so instead we will use Teams. My conference hours are posted below. Those are hours I am guaranteed to be right by my computer. If you need me, you can always e-mail me and we can set up a video conference if you need help with anything at all.

Keep up the great work!

Love,  
Ms. Campbell
